~26,451 SQ FT
CONSTRUCTION:
1,105.48 M² / ~11,899 SQ FT

Marakame transcends traditional residential scale to operate with the majesty of a private resort. Its architecture is defined by an immense central palapa that dissolves walls, fusing living and dining areas with the jungle to create a sanctuary of perpetual shade and constant cross-breezes.

The spatial hierarchy is absolute: the Master Suite commands the main level to guarantee the most privileged views, while the gourmet kitchen extends onto infinite terraces, designed for large-format entertaining without sacrificing family intimacy.
